

This Week

The median list price in LIVINGSTON, NJ 07039 this week is \$585,000.

The Market Action index has been trending down lately, while days-on-market is climbing, providing mostly bearish signs for the market.

Supply and Demand

- The market has started cooling and prices have been flat for several weeks. Since we're in the Seller's zone, watch for changes in MAI. If the MAI resumes its climb, prices will likely follow suit. If the MAI drops consistently or falls into the Buyer's zone, watch for downward pressure on prices.

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.

Quartiles

Price

- Again this week we see prices in this zip code remain roughly at the level they've been for several weeks. Since we're significantly below the top of the market, look for a persistent up-shift in the Market Action Index before we see prices move from these levels.
